What is Healing Touch?

Healing Touch is a gentle complementary energy-based approach to health and healing. The goal is to restore harmony and balance to the human energy system through a heart-centered caring relationship and the use of contact/non-contact touch. This can greatly assist the body in its natural ability to heal.

Why should I take this class?

- To increase your knowledge about energy medicine and Healing Touch!
- To enhance your life and the lives of those around you through understanding the energetic world in which we live and
- To learn simple techniques that you can share

The most common phrase that one hears from people who bring Healing Touch into their lives is “Healing Touch changed my life!” Healing Touch encourages participants to experience life in a new way, a way that opens one up to a wider and deeper view of life and a way of realizing our potential to facilitate healing in others- whether it be physical, emotional, mental, or spiritual.

Who should attend?

Any practicing healthcare practitioner who wishes to learn more about Healing Touch techniques to enhance practice and patient care --- including nurses, physicians, chiropractors, physical therapists, massage and bodywork therapists and others with an interest in energy medicine.
